**Response to Notice To File Missing Parts**

Honorable Commissioner:

This paper is in response to the Notice to File Missing Parts dated August 17, 2004.

A declaration, assignment and filing fee are enclosed.

In the Notice to File Missing Parts, the Office stated that Figures 52B and 60C were described, but the actual figures submitted with the application were Figures 52 and 60.

Applicant notes that in the specification at paragraphs 99 and 100, Figures 52a and 52b were depicted, but the actual figures submitted were labeled as Figures 52 and 52a. An amendment appears below replacing those paragraphs of the specification to cause them to correlate with the drawings submitted. Paragraph 561 has also been replaced to correct this inconsistency.

In the original specification at paragraphs 108, 109, and 110, Figures 60a, 60b, and 60c are described, but Figures 60, 60a and 60b are submitted. An amendment to paragraph 110 corrects this problem.
